ADDITIONAL INFORMATION, FOOTNOTES AND KEY:

ALL listed EPD and Value Index Data is Genomically Enhanced (GE) as reported by the American Angus Association (updated 8/17/24). Incorporated is Angus GS Profile information, generated from an actual DNA sample from each bull, greatly enhancing the accuracy and predictability of the bulls' EPD and Value Index Data.

- This color highlighting denotes trait(s) (EPD and value index) for which a bull ranks in the **Top 5%** of current sires in the **Angus breed**.
- This color highlighting denotes trait(s) (EPD and value index) for which a bull ranks in the **Top 10%** of current sires in the **Angus breed**.
- This color highlighting denotes trait(s) (EPD and value index) for which a bull ranks in the **Top 25%** of current sires in the **Angus breed**.
- This color highlighting denotes trait(s) (EPD and value index) for which a bull ranks in the **Top 50%** of current sires in the **Angus breed**.

EVERY bull in the offering excels in at least one trait, and most are multiple-trait leaders!

ANGUS BREED AVERAGES (Current Sires, Fall 2024): 6 1.3 63 112 26 11.6 18 .60 .61 -15 60 59 92 49 143 244

- *** **Extreme Calving Ease:** actual birth weight less than 70 lb. + birth weight EPD less than 1.0, OR birth weight EPD less than 0.0 + CED over 8.
- ** **Exceptional Calving Ease:** actual birth weight less than 80 lb. + birth weight EPD less than 2.0, OR birth weight EPD less than 1.0 + CED over 4.
- * **Moderate Calving Ease:** actual birth weight less than 90 lb. + birth weight EPD less than 3.0, OR birth weight EPD less than 2.0 + CED over 0.

CAB This designation identifies that the bull's Marbling EPD and Grid Value Index exceeds the **Certified Angus Beef (CAB) Program's** benchmarks (MARB +.65 and \$G 55) for predicting that, when used on a commercial cow herd, the bull will produce progeny capable of achieving an average 50% CAB acceptance rate and bringing premiums when sold on quality beef grids.

D-P **Pathfinder Dam** { Pathfinder Awards are issued by the American Angus Association to recognize cows which consistently
GD-P **Pathfinder Granddam** { demonstrate superior maternal ability, reproductive efficiency and milking ability.
P-P **Pathfinder Dam and Granddam** {

DDP Noted by Reg. number indicates a possible carrier of a non-lethal recessive gene for the defect known as developmental duplication.
OHP Noted by Reg. number indicates a possible carrier of a non-lethal recessive gene for the defect known as oculocutaneous hypopigmentation.
MIP Noted by Reg. number indicates a possible carrier of a non-lethal recessive gene for the defect known as myostatin nt 821 gene deletion.

Go to [angus.org](https://www.angus.org) and enter any bull's registration number in the upper right search box to view his full pedigree and additional EPD.

Prices are subject to change throughout the season at seller's discretion.
